

Write down your definition of the terms “citizens” and “visitors”. How would you describe citizens of a country in comparison to those who simply visit a country?

Citizens	Visitors

There is a very different sense of belonging for these two groups of people. Keeping in mind this idea of citizens and visitors, reflect on the following questions.

1. Do you feel like a citizen or a visitor in the “country” of your school?

2. When someone new joins your school, what does it take for them to gain “citizenship?”

3. What actions can be taken to create a school environment where everyone feels like they belong?
