

Teams have 10 minutes to figure out as many riddles as possible.
Team members must work together rather than divide and conquer the riddles.
No internet help! 😊

1. A cowboy rides into town on Friday, stays for three days and leaves on Friday.
How did he do it?
2. What has a face and two hands but no arms or legs?
3. What is it that everybody does at the same time?
4. A man lives on the 10th floor of an apartment building. Every morning he takes the elevator all the way down to the bottom and goes to work. In the evening, when he comes back from work, he gets into the elevator, and if there is someone else in it, he goes back to the 10th floor. On rainy days he also goes directly to his floor. On all other days, he goes to the 7th floor and walks up three flights of stairs to his apartment. Why?
5. Two fathers and two sons go fishing. They each catch a fish and return with three fish only.
Why?
6. What kind of coat is always wet when you put it on?
7. If there are three apples, and you take away two, how many apples do you have?
8. What disappears as soon as you say its name?
9. Each morning I appear to lie at your feet. All day I will follow, no matter how fast you run.
Yet I nearly perish in the midday sun. What am I?
10. Here on earth it is true, yesterday is always before today; but there is a place where
yesterday always follows today. Where?
11. What comes once in a minute, twice in a moment, but never in a thousand years?
12. A taxi driver is going the wrong way down a one-way street. He passes four police
officers, yet none of them stop him. Why?
