

My Voice, My Future

Student webinars to amplify their voices in positive ways. (Grades 6-12)

Designed for students to use independently and at their own pace, this webinar series helps students learn how to use their voices to positively impact their own lives and learning, as well as how to make a difference in the world around them. Students are presented with a series of Myth Busters as a way to explore what a powerful voice is, and what it is not. Focus concepts are then presented, including words of wisdom from the voices of a wide variety of educators and students. Each session also includes a personal challenge in which students individualize their learning and determine how they will apply what has been learned to their lives moving forward. Each session wraps up with key takeaways and suggested resources for continued learning.

Goals and Projected Outcomes for Students

- Greater understanding of the power and influence of their own voices;
- Increased responsibility for their own learning;
- Improved academic performance and engagement in learning;
- Positive and less stressful class and school transitions; and
- Enhanced self-worth and sense of purpose.

Major Components of Student Voice Webinars

1. Six 20-minute sessions designed specifically for students in middle and high school
2. Sessions can be viewed in any order, providing students more control over their learning
3. Sessions are available to students throughout the academic year, allowing students to revisit sessions of particular interest or need
4. A student reflective guide accompanies each session

Sessions

The online sessions are designed to have students understand the importance of their voices and establish a set of personal and academic goals for the academic year. The sessions available to students are:

- Understanding the Power of My Voice
- Putting My Voice into Action
- Using My Voice for the Good of the Whole
- Building Positive Relationships with My Voice
- Goal Setting Driven by My Voice
- Amplifying My Voice During Transitions
