

## Why Student Voice Matters

When students have a voice, they have more meaningful learning experiences. Data from 103,125 students who took the Quaglia Student Voice Survey shows that ...

When students believe they  
have a voice they are

**25%**

more likely to report having Self-Worth in school.

**37%**

more likely to report having a sense of Purpose in school.

**41%**

more likely to report experiencing Engagement in school.

**48%**

more likely to report being Academically Motivated.

**78%**

more likely to report having Teacher Support.
