

CAJ AND ADLEE

We know young learners always have **something to say!**

It is up to all of us to create the conditions in **school** and at **home** that will allow children to use their voices in meaningful ways. Here are a few activities and conversation starters. We would love to hear your ideas on how you are promoting the **voices** of young people.

Have fun,

Cali and Russ

Which animal did you like the best? Why?

What makes YOU special?

What kind of voice do you have?

How can your voice help others?
