Why is this change needed? Are you able to articulate to students, staff, community, and parents the “why” behind this change?

How is time being allocated for staff and student learning to make this change happen?

What are your plans for decreasing barriers and increasing commitment to the change?

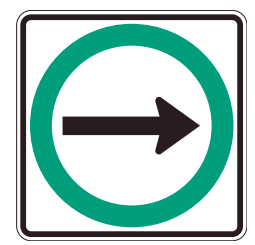

What role do students have in planning, implementing, and sustaining this change?

How are you supporting student and staff willingness and motivation for change?

Compile Voice & Aspirations pictures, videos, documents, and other artifacts that reflect implementation of your specific SVA trip.
